

Simple Collaboration

The New Generation

Project Management Tool is about accommodating different management styles for different situations.

Transparency to promote cross supervision and help managers maintain control

Timely & Accurate Information for effective judgment

Situational Project Management

- Choose the Practices Suitable for Your Situation

8thManage[™] PM helps organizations manage small, unstructured projects to large, highly-sophisticated projects

8thManage[™] PM supports traditional techniques such as WBS, scope structure, Gantt chart, critical path, EVM as well as modern techniques such as Iterative Dependency and Reality Check

Enterprise Collaboration

8thManage™ PM provides the foundation for individual and group coordination and interaction

- Functional and project-oriented organization management
- Common language for request, commit, deliver and accept
- Group, committee and site coordination and management
- Client, partner and supplier coordination and management
- Inter-organization interaction and escalation management

Enterprise Program Management

8thManage™ PM and 8thManage™ PMO together provide complete coverage for managing portfolio of projects

- Standard cost classifications and automated financial consolidation and reporting
- Multi-organizational accountability
- Policy enforcement in enterprise, PMO and project levels
- Information transparency
- Aggregated scope and milestone management
- Cost management in PMO and project levels
- Change request management in PMO and project levels
- Aggregated issue and risk management

Enterprise Resource Management

8thManage[™] PM provides features for searching, requesting, allocating and tracking of resources in multiple sites, groups, PMOs, projects and activities

- Automated resource search across sites and groups based on skill and availability
- Resource allocation automates cost estimating and budgeting
- Comparison of resource plan vs. actual utilization
- Detection of overloaded and inadequate resources
- Aggregation of enterprise data into portfolio views to identify critical issues and balance risks across initiatives

Project Execution Management

8thManage[™] PM allows full traceability of project execution

- Activity scheduling and execution management
- Deliverable scheduling and handoff management
- Dependency scheduling, tracking and acceptance management
- Project and activity approval and re-approval management
- Real-time request and response management
- Real-time risk and problem detection
- Execution policy and control management
- Complete audit trail

Commitment Management

8thManage[™] PM provides comprehensive support for 1-way and 2-way project commitments

- Commitment proposal for activity, deliverable and resource
- Commitment record for schedule, cost and quality commitments
- Commitment protocols for proposing, approving and accepting commitments
- Commitment cancellation, fulfillment and breakage management
- Commitment track record management

Predictable Commitment via Our Patent Pending Protocol

Requirements and Iteration Management

It is difficult to communicate complex requirements in a single exchange. 8thManage™ PM fosters an iterative approach to delivery and acceptance of complex requirements

Risk Management

8thManage[™] PM automatically detects systemic risks and provides an integrated risk register for recording user-identified risks and tracking them to closure

- Automatic detection of schedule and cost overrun risks
- Automatic detection of resource inadequacy and shortfall risks
- Automatic detection of deliverable review and acceptance risks
- Automatic detection of control and confidence risks
- Recording of user defined risks and tracking of mitigation actions
- Risk criteria definition and analysis matrix

User Identified Risk

Reality Check

8thManage™ PM facilitates pulse taking for the project systematically

- Sponsor and team's confidence
- Stakeholders' consensus
- User satisfaction

Communication and Issue Management

8thManage™ PM provides various communication mechanisms and a centralized issue management system to track issues and action items to closure

Real-time Monitoring and Tracking

8thManageTM PM provides the following dashboards for communicating status, identifying problems and tracking necessary actions:

- Project
- Cost
- Resource
- Dependency
- Deliverable
- Risk

Interaction Management and Decision Support

8thManage™ PM facilitates structured interactions and provides real-time information, allowing teams to make informed decisions

Unstructured Email

Structured Interactions

Informed Decisions

Methodology Template and CMMI Support

8thManage[™] PM provides methodology templates to aid project plan creation. It also provides support for 9 CMMI Generic Processes and 27 CMMI Specific Processes

Agile Methods

8thManage[™] PM supports the "Client as a team member" concept and facilitates release planning, iteration planning, team interaction, internal testing, acceptance testing used by Agile methods

Maintenance Management

8thManage[™] PM provides the following tools for maintenance support:

- Client support module
- Call log & response tracking facility
- Defect and change tracking system
- Release and patch facility

Additional Built-in Features

8thManage[™] PM has the following convenient features built-in:

- Personal dashboard and calendar
- Timesheet facility
- Product and license management features
- Complete document management system
- Complete audit trail

8thManage[™] PM can do the following for your organization:

- Strengthen its collaboration structure
- Improve information availability and transparency
- Shorten its learning curve in organizing and teamwork skills
- Reduce management overhead and compliance cost
